# SAFETY DATA SHEET

# SECTION 1) CHEMICAL PRODUCT AND MANUFACTURER'S IDENTIFICATION

Product ID: 496525
Product Name: ZenLektrix

 Revision Date:
 Jun 23, 2020
 Date Printed:
 Jun 23, 2020

 Version:
 2.0
 Supersedes Date:
 Nov 18, 2016

Manufacturer's Name: ZENEX International

Address: One Zenex Circle Cleveland, OH, US, 44146

Emergency Phone: 1-800-535-5053
Information Phone Number: (440) 232-4155
Product/Recommended Uses: Contact cleaner

# **SECTION 2) HAZARDS IDENTIFICATION**

#### Classification

Aerosols - Category 1

Gases Under Pressure - Liquefied Gas

Aspiration Hazard - Category 1

Carcinogenicity - Category 1B

Germ Cell Mutagenicity - Category 1B

# **Pictograms**

# Signal Word

Danger

# **Hazardous Statements - Physical**

H222 - Extremely flammable aerosol.

H280 - Contains gas under pressure; may explode if heated.

#### **Hazardous Statements - Health**

H304 - May be fatal if swallowed and enters airways.

H350 - May cause cancer.

H340 - May cause genetic defects.

# **Precautionary Statements - General**

P101 - If medical advice is needed, have product container or label at hand.

P102 - Keep out of reach of children.

P103 - Read label before use.

#### **Precautionary Statements - Prevention**

P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

496525 Page 1 of 7

- P211 Do not spray on an open flame or other ignition source.
- P251 Do not pierce or burn, even after use.
- P201 Obtain special instructions before use.
- P202 Do not handle until all safety precautions have been read and understood.
- P280 Wear protective gloves, protective clothing, eye protection and face protection.

#### **Precautionary Statements - Response**

P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor.

P331 - Do NOT induce vomiting.

P308 + P313 - IF exposed or concerned: Get medical attention.

#### **Precautionary Statements - Storage**

P410 + P412 - Protect from sunlight. Do not expose to temperatures exceeding 50°C / 122°F.

P405 - Store locked up.

P403 - Store in a well-ventilated place.

# **Precautionary Statements - Disposal**

P501 - Dispose of contents and container in accordance with local, regional, national and international regulations.

#### **SECTION 3) COMPOSITION, INFORMATION ON INGREDIENTS** CAS **Chemical Name** % By Weight 0064742-49-0 VM & P NAPHTHA 37% - 60% 0000075-37-6 DIFLUOROETHANE 19% - 30% 10% - 23% 0068476-86-8 Petroleum gases, liquefied, sweetened 0000142-82-5 N-HEPTANE 1.2% - 3%

Specific chemical identity and/or exact percentage (concentration) of the composition has been withheld to protect confidentiality.

# **SECTION 4) FIRST-AID MEASURES**

#### Inhalation

Remove source of exposure or move person to fresh air and keep comfortable for breathing.

If exposed/feel unwell/concerned: Call a POISON CENTER or doctor.

Eliminate all ignition sources if safe to do so.

#### **Eye Contact**

Remove source of exposure or move person to fresh air. Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing for a duration of 15-20 minutes. Take care not to rinse contaminated water into the unaffected eye or onto the face. If eye irritation persists: Get medical advice/attention.

# **Skin Contact**

Take off contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Wash with plenty of lukewarm, gently flowing water for a duration of 15-20 minutes. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

IF exposed or concerned: Get medical advice/attention.

# Ingestion

Immediately call a POISON CENTER or doctor. Do NOT induce vomiting. If vomiting occurs naturally, lie on your side, in the recovery position.

#### Most Important Symptoms/Effects, Acute and Delayed

No data available.

# **Indication of Immediate Medical Attention and Special Treatment Needed**

No data available.

#### **SECTION 5) FIRE-FIGHTING MEASURES**

#### **Suitable Extinguishing Media**

Dry chemical, foam, carbon dioxide. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Carbon dioxide can displace oxygen. Use caution when applying carbon dioxide in confined spaces. Simultaneous use of foam and water on the

496525 Page 2 of 7

same surface is to be avoided as water destroys the foam. Sand or earth may be used for small fires only.

#### **Unsuitable Extinguishing Media**

No data available.

#### **Specific Hazards in Case of Fire**

Contents under pressure. Keep away from ignition sources and open flames. Exposure of containers to extreme heat and flames can cause them to rupture often with violent force. Product is highly flammable and forms explosive mixtures with air, oxygen, and all oxidizing agents. Vapors are heavier than air and may travel along surfaces to remote ignition sources and flash back.

During a fire, irritating and highly toxic gases may be generated during combustion or decomposition. High temperatures can cause sealed containers to rupture due to a build up of internal pressures. Cool with water.

Empty Containers retain product residue which may exhibit hazards of material; therefore do not pressurize, cut, glaze, weld or use for any other purposes.

Container could potentially burst or be punctured upon mechanical impact, releasing flammable vapors.

#### **Fire-Fighting Procedures**

Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from immediate hazard area if it can be done safely. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Water may be ineffective but can be used to cool containers exposed to heat or flame. Caution should be exercised when using water or foam as frothing may occur, especially if sprayed into containers of hot, burning liquid.

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

#### **Special Protective Actions**

Wear positive pressure self-contained breathing apparatus (SCBA)

# **SECTION 6) ACCIDENTAL RELEASE MEASURES**

#### **Emergency Procedure**

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

Do not touch or walk through spilled material.

Isolate hazard area and keep unnecessary people away. Remove all possible sources of ignition in the surrounding area. Notify authorities if any exposure to the general public or the environment occurs or is likely to occur.

If spilled material is cleaned up using a regulated solvent, the resulting waste mixture may be regulated.

#### Recommended Equipment

Wear liquid tight chemical protective clothing in combination with positive pressure self-contained breathing apparatus (SCBA).

#### **Personal Precautions**

Avoid breathing vapor. Avoid contact with skin, eye or clothing. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

# **Environmental Precautions**

Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

# Methods and Materials for Containment and Cleaning up

Absorb liquids in vermiculite, dry sand, earth, or similar inert material and deposit in sealed containers for disposal.

#### **SECTION 7) HANDLING AND STORAGE**

#### **General**

Do not puncture or incinerate (burn) cans. Do not stick pins, nails, or any other sharp objects into opening on top of can. Do not spray in eyes. Do not take internally.

#### **Ventilation Requirements**

Use in a well-ventilated place.

#### **Storage Room Requirements**

Store and use in a cool, dry, well-ventilated area. Do not store above 120°F. See product label for additional information.

#### **SECTION 8) EXPOSURE CONTROLS/PERSONAL PROTECTION**

#### **Eye Protection**

Wear safety glasses with side shields. Eyewash stations and showers should be available in areas where this material is used and stored.

496525 Page 3 of 7

#### **Skin Protection**

Use solvent-resistant protective gloves for prolonged or repeated contact.

#### **Respiratory Protection**

Avoid breathing vapors. In restricted areas, use approved chemical/mechanical filters designed to remove a combination of particles and vapor. In confined areas, use an approved air line respirator or hood. A self-contained breathing apparatus is required for vapor concentrations above PEL/TLV limits.

#### **Appropriate Engineering Controls**

Ventilation should be sufficient to prevent inhalation of any vapors.

Chemical Name	OSHA TWA (mg/m3)	OSHA TWA (ppm)	OSHA STEL (mg/m3)	OSHA Carcinogen	OSHA Skin designation	OSHA Tables (Z1, Z2, Z3)	ACGIH TWA (mg/m3)	ACGIH TWA (ppm)

# **SECTION 10) STABILITY AND REACTIVITY**

#### **Stability**

Stable under normal storage and handling conditions.

# **Conditions to Avoid**

Avoid heat, sparks, flame and contact with incompatible materials

Dropping containers may cause bursting.

#### **Incompatible Materials**

Avoid strong oxidizers, reducers, acids, and alkalis.

#### **Hazardous Reactions/Polymerization**

Will not occur.

#### **Hazardous Decomposition Products**

No data available.

# **SECTION 11) TOXICOLOGICAL INFORMATION**

#### **Skin Corrosion/Irritation**

No data available.

### **Likely Route of Exposure**

Inhalation, ingestion, skin absorption.

#### **Serious Eye Damage/Irritation**

No data available.

# **Carcinogenicity**

May cause cancer.

#### **Germ Cell Mutagenicity**

May cause genetic defects.

#### **Reproductive Toxicity**

No data available.

#### **Respiratory/Skin Sensitization**

No data available.

# **Specific Target Organ Toxicity - Single Exposure**

No data available.

# **Specific Target Organ Toxicity - Repeated Exposure**

No data available.

# **Aspiration Hazard**

May be fatal if swallowed and enters airways

#### **Acute Toxicity**

No data available.

# **SECTION 12) ECOLOGICAL INFORMATION**

#### **Toxicity**

Toxic to aquatic life with long lasting effects.

# **Persistence and Degradability**

No data available.

# **Bio-Accumulative Potential**

No data available.

# **Mobility in Soil**

No data available.

496525 Page 5 of 7

No data available.

# **SECTION 13) DISPOSAL CONSIDERATIONS**

#### **Waste Disposal**

Under RCRA, it is the responsibility of the user of the product, to determine at the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state, and local laws.

Empty containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld or use for any other purposes. Return drums to reclamation centers for proper cleaning and reuse.
