# **SECTION 4) FIRST-AID MEASURES**

#### Inhalation

Remove to fresh air. Administer oxygen if needed. Apply artificial respiration if breathing has stopped. Get medical attention.

## Eye Contact

Wash immediately with large volumes of fresh water for at least 15 minutes. Get medical attention.

#### **Skin Contact**

Wipe off with a towel. Wash with soap and water. Get medical attention if irritation persists.

#### Ingestion

Ingestion is not a likely route of exposure. Get medical attention if you feel unwell.

# **SECTION 5) FIRE-FIGHTING MEASURES**

# Suitable Extinguishing Media

Foam, alcohol foam, carbon dioxide, dry chemical, water fog.

## Unsuitable Extinguishing Media

Water may be ineffective but can be used to cool containers exposed to heat or flame.

## Specific Hazards in Case of Fire

Closed containers may explode from internal pressure build-up when exposed to extreme heat and discharge contents. Liquid content of container will not support combustion. Overexposure to decomposition products may cause a health hazard. Symptoms may not be readily apparent. Obtain medical attention. Hazardous decomposition products include carbon dioxide, carbon monoxide, and other toxic fumes.

## **Fire-Fighting Procedures**

Water may be used to cool containers to prevent pressure build-up and explosion when exposed to extreme heat.

#### **Special Protective Actions**

Wear goggles and use a self-contained breathing apparatus. If water is used, fog nozzles are preferred.

# SECTION 6) ACCIDENTAL RELEASE MEASURES

## Emergency Procedure

Avoid breathing vapors. Ventilate area. Remove all sources of ignition.

#### **Recommended Equipment**

Clean up with an absorbent material and place in closed containers for disposal.

#### **Personal Precautions**

Avoid breathing vapors. Ventilate area. Wear safety glasses and gloves.

#### **Environmental Precautions**

Stop spill/release if it can be done safely.

# **SECTION 7) HANDLING AND STORAGE**

## General

Do not puncture or incinerate (burn) cans. Do not stick pins, nails, or any other sharp objects into opening on top of can. Do not spray in eyes. Do not take internally.

#### **Ventilation Requirements**

Use in a well-ventilated place.

## **Storage Room Requirements**

Store and use in a cool, dry, well-ventilated area. Do not store above 120°F. See product label for additional information.

# SECTION 8) EXPOSURE CONTROLS, PERSONAL PROTECTION

## **Eye Protection**

Safety glasses with side shields should be used if indicated. Eye wash and safety showers in the workplace are recommended.

# **Skin Protection**

Use solvent-resistant protective gloves for prolonged or repeated contact.

#### **Respiratory Protection**

In restricted areas, use approved chemical/mechanical filters designed to remove a combination of particles and vapor. In confined areas, use an approved air line respirator or hood. A self-contained breathing apparatus is required for vapor concentrations above PEL/TLV limits.

# Appropriate Engineering Controls

Ventilation should be sufficient to prevent inhalation of any vapors.
