Rust Converter

Rust Neutralizer

ZENEX NUMBER 497710

DESCRIPTION

A one step rust converter that chemically neutralizes rust on metal surfaces. Eliminates the need for scraping, brushing or sandblasting before painting. Aerosol can allows for easy mess free application.

FEATURES AND BENEFITS

Chemically neutralizes rust and converts the rust to a black protective finish. Seals, prolongs and protects the life of ferrous metal. Eliminates the need for brushing, sandblasting, or scraping before painting rusted surfaces. May be painted over without further surface preparation.

APPLICATIONS AND USES

Excellent for use on railings, fences/gates, bridges, towers, vehicles, marine equipment, structures, metal roofs, tanks, guard rails, playground equipment, farm tools and many other rusted surfaces.

DIRECTIONS FOR USE

NOTE: Not recommended on surfaces that might be exposed to temperatures over 200°F.

Protect area from overspray. Remove all loose paint, dirt, rust, and grease from surface. Shake well for one minute & in between sprayings. Hold 8-10" & spray in a sweeping motion. Two or more coats may be applied if necessary. Will dry to a paintable black finish. Allow to cure for 24 hours before applying top coat.
